

GET THE KIDS INVOLVED: HOW TO TEACH GENEALOGY TO STUDENTS

Monday, July 24 8:15 AM

IAJGS Orlando, Florida

E. Randol Schoenberg

randols@bslaw.net

Genealogy isn't just for old folks and we all know that it is easier to start when you are young. Over the course of several years, I have developed a good program/model for teaching Jewish genealogy to high school students and training them to become genealogists. Learn how you can also share your expertise with young people and harness their energy to preserve Jewish history.

EXAMPLES
